

# *Bio of the Northcoast Miata Club 2011:*

## **NEWSLETTER EDITOR**

### **Rich Velardo.**

Basically my job as newsletter editor is to be the guy who organizes all of the monthly news from the club and to publish it for all to read. We're doing this on-line now, where we can add more pictures, more color and more pages of information. I am also responsible for being sure the newsletter is distributed to all members.

Lilas and I have been members since 1999, when we bought our first Miata, an Emerald Green & Tan. Our current Miata is a Copper Red 2008; both Miatas were modified "quite a lot". Lilas and I enjoy traveling with the club and doing as many of the other club activities as we can.

Not long after joining I was recruited as Newsletter Editor, which I did for several years before becoming vice president and then president. I've now been re-recruited as newsletter editor again.

I am proud to proclaim myself as a true, over the top, Miata-nut. Besides being active in our club, I am also one of the original [Miata.net](http://Miata.net) moderators.
